Scope of Review

We have reviewed the accompanying interim consolidated balance sheet of **Etihad Etisalat Company** (a Saudi joint stock company) (the "Company") as of March 31, 2012, and the related interim consolidated statements of income and cash flows for the three month period then ended including the notes which form an integral part of these interim consolidated financial statements. These interim consolidated financial statements are the responsibility of the Company's management and were presented to us with all the information and explanation which we required.

We conducted our review in accordance with the standard of interim financial reporting issued by the Saudi Organization for Certified Public Accountants. A review consists principally of applying analytical procedures to financial data and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with generally accepted auditing standards in the Kingdom of Saudi Arabia, the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Review Results

Based on our limited review, we are not aware of any material modifications that should be made to the accompanying interim consolidated financial statements for them to be in conformity with generally accepted accounting standards in the Kingdom of Saudi Arabia.
